NORA KAMM

German-born saxophonist, singer and composer Nora Kamm is back with an exhilarating first album as a band leader entitled « ONE ». Arriving in Paris in 2018, Nora Kamm was quickly swept up in the city's legendary vibrant African Music scene. She explains, « For me, nothing is more precious than connecting to the world and meeting people from different backgrounds. This new album is a declaration of love to Africa. » The saxophonist is surrounded by an impressive international group of players - with its meticulous and intricate rhythmic foundation, it's almost impossible to listen to this band on stage without dancing.
